

REMARKS

With the Amendment and Response to Office Action of June 13, 2005, the Applicant has addressed the substantive issues that the Office Action raised. In addition, however, the Office Action objected to the specification, stating that “on page 7 and 8, the brief description of Figures 9B, 11B, 12, and 13 are missing (it may occur during scanning of the application). Appropriate correction is required.”

The Applicants respectfully submit that the application, as filed, includes the materials that the Office Action identifies as missing. The Applicant encloses with this paper the relevant portions (pages 1-10) of the as-filed application. Because the as-filed application included the materials that the Office Action identifies as missing, the Applicant respectfully submits that no further action on the Applicant’s part remain. If the missing portions resulted from the scanning of the application, the Applicant respectfully requests that the Office repeat the scanning operation to correct the defect.

The Applicant respectfully submits that the presently pending claims are allowable. The Applicant therefore respectfully requests a prompt Notice of Allowance.

CONCLUSION

The Applicant respectfully submits that the claims are in allowable condition. Consequently, favorable reconsideration and prompt issuance of a Notice of Allowance is respectfully requested. No additional fee is believed to be due. Should any fees under 37 CFR §§ 1.16-.21 be required for any reason relating to the enclosed materials, however, the Commissioner is authorized to deduct such fees from Deposit Account No. 10-1205/SILA:073.

The examiner is invited to contact the undersigned at the phone number indicated below with any questions or comments, or to otherwise facilitate expeditious and compact prosecution of the application.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'MRP', followed by a horizontal line.
